

## DISCOVERING INHERITANCE AND DESTINY

From the place of intimacy, that secret place inside of us where we learn how to commune with God, where we begin to know him and love him, it is from this place we are to surrender our lives to him so that we can allow him to transform and change us on the inside.

As we learn how to get the life of God flowing in us, the lord will remove from us everything that is a hindrance or a stumbling block so that he can raise up a Joshua generation who will lead the next generation into their inheritance.

Joshua and Caleb were the only two who received their inheritance, the rest died in the wilderness, even Moses was not permitted to enter the Promised Land.

The Promised Land represents first of all, our heart (Land is a type of our heart). Where everything within it, that is not like God is displaced, where the fruit of the Spirit can grow unhindered, so that we can experience heaven on the inside of us. We are to be a habitation of God's presence.

The Promised Land also represents the kingdom of God coming upon the earth, where we co labor with God to cleanse the atmosphere around the earth, the kingdom of the world or the kingdom that is in darkness, of the demonic spirits that are now ruling in it.

The kingdom of God has foundations of righteousness and justice. And it is God's people who are eventually going to judge these fallen Angels and we have a right to

bring judgment to change things in the world.

Once we start doing that we will move that hierarchy of authorities in the atmosphere of the earth and we can start to rule. We will be ruling in light, ruling in love, ruling in authority and power. And when we start operating there, the influence that we have in the heavens will be manifested here on earth.

God wants us to understand how to access those realms. And there is a remnant now on the earth that are already accessing these realms in the heavens. But first we must learn how through the Spirit to possess our hearts for God. Then through the Spirit we will be able to access these heavenly realms.

We are the ones that are destined to be ruling in these heavenly places, this is the place that determines what is happening in the earth. If we can change the atmosphere that is over a city, then we can change that city.

All darkness is- is the lack of Government. And we are the sons of light that are to bring the government of God into these areas.

Joshua and Caleb were those who took the children of God into their inheritance. God wants his children to have their inheritance. The word sin means to not share in our inheritance or destiny.

Our inheritance is God. Any area of our life that we are not partaking of God, we are partaking of something else and this is what sin is.

God dealt with sin on the cross, so he is not dealing with our sin. He is offering us himself, and as we learn how to partake of Him, then he fills that area of our life with himself, so that we come into our inheritance.

As we partake of the divine nature, through the inflowing of God's life, our spiritual eyes and ears open and that which is not like God is transformed.

The seed of God or the life of God is now filling that area of our life and we cannot sin. We are not going to partake of something that is less than him. The thought itself is foolishness.

But we have to have the mind of Christ. It is called repent which means, together with Gods mind. His thoughts are flowing into the consciousness of our mind so that we are not tempted by a thought, desire or emotion that's source is not him.

Through the cross we have been invested with authority to fulfill our destiny. We do not want to be the ten virgins who were asleep, but the friends of the bridegroom who told the virgins to wake up, who knew what was going on in the heavenly realms. So we need to wake up through the infilling of Gods life into our spirit, soul and body so that we can discover our inheritance and destiny in God.

Jeremiah 1:5 before I formed you in the womb I knew you. In eternity God knew us, and he consecrated us and appointed us for a purpose, to fulfill a destiny.

Everything about our lives were written in a scroll, a

book, everything that has been ordained for us has already been written, so we need to discover our destiny, to find out what was written in that scroll. Our destiny has always been to rule, to bring heaven to earth.

Gen 1:28 God blessed them. Be fruitful, multiply, subdue the earth, and rule. Our destiny is to bring the rule of heaven to earth so that we transform not just this planet but also our universe and everything beyond that.

Psalms 24:7 lift up your heads oh ye gates. This is talking about us being lifted up to that place of rulership and authority where we become a gateway for the King of glory to come in and fill this world through our lives. This is what God wants to do through us. That we would be a channel of his grace, mercy and power, everything that he is in heaven, we would manifest that here on earth.

Zechariah 3:6 Angel the Lord admonished Joshua, the high priest who was standing in the presence of God in the heavens and said if you will walk in my ways and if you will perform my laws then you will also govern my house and have charge of my courts and I'll grant you free access among those who are standing here.

This is a picture of the heavenly realm, where we will come into sonship and learn the ways of God, and govern his house and have charge in the courts of God.
