

WHAT IS OUR SPIRIT?

We become a house of God when there is reconciliation between our spirit and God. This happens through the new birth of our spirit.

Once our spirit is born again then our soul needs to get saved, there needs to be reconciliation between our spirit and our soul.

Once we become sanctified spirit, soul and body then there needs to be reconciliation between the sons of God and creation.

1 corinthians 6: ¹⁷But he that is joined (ppmp-continuous repeated action. The **Middle Voice** represents us acting in some way upon ,The **Passive Voice** represents us receiving the action of the verb) (To glue together, to make cohere. Used in reference to marriage, the relationship is one of intimacy) *unto the Lord is one* (to indicate the singularity of something, thus emphasizing that there is but one only. one and the same) *spirit.*

Our spirit is literally born of God it is all of one spirit. That which is born of The Spirit is spirit. Our spirit becomes divine.

Our Spirit is made of creative light. In the spirit realm, when our spirit is in total submission to the Lord and His life is flowing through it, we are seen as light. This is how the angles and demons and all created beings see us.

1 john 1: ⁵This then is the message (Primarily a legal term denoting a promise to do or give something, the thing promised, a gift graciously given) *which we have heard of him, and declare unto you, that God is* (occurring now, to be) *light* (pure radiance, perfect brightness, to shine, dazzling light, splendor or glory, that which is exposed), *and in him is no darkness at all.*

Our spirit came out of eternity; it came out of the heart of God, his desire to reproduce himself. We are literally children of God and our spirit will grow up to become just like our father.

We pre-existed in eternity as thoughts within the very heart and mind of God. The children he desired to have uniquely and individually created as our spirit entered the womb of our mother and we became a soul.

Our spirit is our eternal essence it came from eternity and will return to it. It is the wind; it is the very breath of God. It is our eternal life essence.

When our spirit entered the womb of our mother our soul was created and our spirit was put into a place of separation from God. This is why our spirit has to be awakened, resurrected or born again.

If our spirit is not born of God, then when we die our spirit will go back to God who gave it, and become separated from our soul which will go into a place of torment.

We have to literally lose our life (soul) in this world, in order for our soul to be transformed, and become the bride of Christ who will rule and reign with him forever.

This is why we have to open our spirit to the lord and let his love flow through our spirit back to him, so that we can lay down our soul for the Lord, so that our soul no longer acts independently of the Lord. It is the love of God that saves the soul.

Our soul goes through a transformation so that it can live in two realms. We not only access heaven with our spirit, but our soul can go

there also. Or our soul can also stay in our body and just be conscious of the heavenly realms through the gateway of our imagination as our spirit is revealing what it is experiencing there.

Our soul is the part of us that keeps us earthbound, but as our soul becomes transformed just like a tadpole that becomes a frog that can now live in the water and land. And the caterpillar become a butterfly and can now live on land or in the air. When our soul is transformed it can live in heaven and earth.

Our soul has to get born again or be transformed and then we can enter into even greater works than Jesus did.

Our spirit can be in heaven and our soul on earth aware of what is happening there. This is how Jesus lived; because his soul was alive to God he continually saw what the father was doing.

Our spirit is dimensional it can encompass our soul and body, it can go to different places on the earth and it can go to heaven, we just have to learn how to grow it.
