

THE SPIRIT OF BREAKTHROUGH

Our ability to imagine and focus in love connects us with the realm of the kingdom of God. If we don't do it it doesn't happen.

Our spirit has the ability to connect with the love and faith of God. We have to love God with all our spirit, soul and body and then love others. As the love of God flows into our spirit and then we focus it on others, the lord will begin to speak to us concerning our brothers and sisters. His faith comes to us concerning our brethren so that we can intercede for them.

What we think, what we imagine, what we focus on causes it to become real in the natural realm.

Genesis 11:6 – and the Lord said behold this people has become one, there was unity and they have all one language and this they begin to do and now God said nothing can be restrained from them which they have imagined to do. These were ungodly people. He said nothing they imagined to do even I cannot restrain it, because it is a spiritual law. He ended up destroying them in a flood.

They were operating in a spiritual law and God said nothing can be restrained from what they have imagined to do. They linked into a spiritual law. Those people were one they had one focus and they had unity.

Jesus said if you believe with your heart nothing is impossible to you.

Fellowship with Jesus requires us to be in the spirit. Because that is where he is. Our mind is the vehicle which takes us there. Fellowship with Jesus requires us to be in the spirit. Our mind or our focus with

strong emotion of love will take us in there.

Adam lost his ability to see into the kingdom of God, we have gained that ability when we were born again. His kingdom is not of this world.

God's love for us, God's love towards us is constant. Our fellowship with him is variable, because it depends upon us. God never stops loving us, his love for us is constant but our walk with him or our fellowship with him varies. It is dependent upon us.

He doesn't come into our realm we have to come into his realm. If are going to worship God we are going to have to come into his realm. He is not to come down to our realm. But we have a new creation man which can do this. And we can rise into his realm.

When we enter into the spirit realm his glory will be upon us, and then other people can become aware of it. This is called the moving of the Spirit. but someone has to break into this realm.

When the first love gate in our spirit is open and flowing, the life of God flows into our spirit, through our soul, out of our body producing a kingdom atmosphere around us in which the Spirit of God touches other people.

Walking in the spirit of God is dependent upon walking in the light. God is light; if we are going to walk with him we have to walk in light, because that is where he is. Then we have fellowship in the spirit with God and one another.

We are not to know one another after the flesh, we are to know one another after the spirit. Because the flesh, the natural man is the greatest bluffer the world knows. We cannot know each other that

way. We can only know by the measure of light that is in their spirit. So we walk in the light, God is light with a clear conscience.

Sin or familiar spirits separates us from God. It is not that God goes away but because of sin in the soul we cannot see him clearly. We have to keep our conscience clear and then we can ascend, without that condemnation holding us back.

We have to get the gateways of our spirit, soul and body open and cleansed so that the things in our heart that veil us for seeing and entering the kingdom are removed.

It takes time to break through in this. We have to wait on the Lord, and let the Holy Spirit search our heart. We have to confess, repent and renounce the things in us that the enemy can use as accusations against us.

We have to develop a conscious awareness of the Lord, and the kingdom realms.. We have to develop our spiritual faculties.

But once we have done something in God we can do it again. Just one experience and then we can do it again. It is a spiritual law and a very important one.

Once you have operated in the word of knowledge you can do it again. Once you have come into that realm and seen Jesus you can do it again. Once you have come into that realm and seen Angels you can do it again.

Paul said to Timothy he said stir up those certain spiritual abilities that you have moved in. Now they were given to you through laying on

of hands there was an impartation. Now Timothy you activate them, you can do it again Timothy. That was all that he was saying.

Once we've experienced something in God we can experience it again.

Once you've done it you can do it again all we have to do is stir up this thing of getting in the spirit.

Making the breakthrough is difficult, maintaining the experience is easy.

Making the breakthrough, we have to pray we have to seek God we have to fast we have to hunger and thirst until we break in. We have to practice, do what the word says.

It is hard getting a breakthrough. This is where seeking God comes in. We may have to go on a fast. Jesus didn't say if you fast but when you fast. When you fast do it this way – there was a foregone conclusion that you are going to do it. We need to seek God with hunger, with desire, with determination and we will breakthrough.

Every spiritual level that we walk in we have to spend time breaking into it. With seeking God, determination but once we break into it we can maintain it easily. We can do it again. God wants us to have more breakthroughs because it is a spiritual law .Breakthrough then you can maintain that experience then you can do it again. Once you have moved in it you can activate it.

It is like the shuttle, the space shuttle uses 95% of its fuel just getting the thing into orbit. It virtually uses all of its fuel just to get it out there. It is tremendous effort but once it's up there it can move easily and maneuver and fly and steer it doesn't take much power to

keep it going. But it takes an awful lot of power to break through the Earth's atmosphere. When it breaks through that gravitational pull it is easy. We have to breakthrough the demons that are against us, the oppression of the enemy we have to breakthrough into the realm of the kingdom.

Once we get a breakthrough, and this is the same in healing. One breakthrough in praying for someone with a certain disease we then have authority in that area. Just one breakthrough that is all it takes. And then we have authority in that area. This makes spiritual things exciting all we got to do is give it our all in order to break through. We secure these things in our spirit.

All we need to do is get a breakthrough; the spirit realm is very real. But we have to breakthrough first, then we can maintain it. Once we have broken through we have a level of authority in that realm that we have broken through into.

There is a whole dimension in the realm of the spirit that we have yet to explore. Once our spirit man has ascended into that realm it has a tremendous authority. But it doesn't have the same authority when it is encased within us.

1-What we focus on we connect with. 2 – first in the natural and then in the spiritual. 3 – once we have done it we can do it again.

But we have to breakthrough to do it the first time.

We are going to make mistakes in trying to break through but that is okay. We are going to be wrong at times that is not a problem being wrong. It is good for our pride, it really doesn't matter. As long as

we are in motion, as long as we keep trying, we are going to get a breakthrough. It's called persistence. What God has for us we have to breakthrough into it.
